Experience

PT Bank Rakyat Indonesia - **QIB Token & New Qlola Mobile** Feb 2026 - Present

Mobile Developer

Mobile Developer focused on engineering secure and high-performance corporate banking solutions for the Qlola ecosystem. Specialized in seamless financial workflows, cross-platform mobile development, and advanced mobile app security.

- Integrated Guardsquare to harden application defenses, obfuscate code, and prevent reverse engineering or tampering.
- Developed secure and intuitive workflows for both single and multi-transaction processing to ensure a seamless corporate user experience.
- Implemented a robust scan-and-verify token generation system for secure transaction approvals and user authorization.

PT Steradian data Optima - **QLola by BRI & QLola Mobile** Nov 2023 - Feb 2026

Mobile | Web Developer

Squad Lead directing cross-functional teams to build secure, high-quality Android, iOS, and Web banking applications. Adept at Agile sprint management, ensuring seamless user experiences and timely project delivery.

- Implemented enterprise-grade protections, including end-to-end eKYC (Zoloz SDK), Call-State Security against social engineering, and dynamic QR/TOTP for secure multi-transaction corporate approvals.
- Led cross-functional teams to build high-performance Android/iOS interfaces, delivering seamless user experiences across real-time financial dashboards, Cash Management workflows, Forex modules, and Bank Admin portals.

Simajji Concept - **Sprii Commerce** Jul 2022 - Aug 2023

Web Developer

Developed the Spriicommerce platform, a Social Commerce and Loyalty Management System (SLM) enabling brands to seamlessly integrate eCommerce functionalities and reward systems.

- Spearheaded a B2B digital procurement platform, developing robust product catalogs and real-time inventory tracking systems.
- Managed system architecture to maintain 99.9% uptime and integrated secure, multi-channel payment gateways for encrypted B2B transactions.

IDN Media - **Company Profile Idn.media** Sep 2021 - Jul 2022

Web Developer

Contributed to the IDN Media consumer tech platform ecosystem, empowering Millennials and Gen Z in Indonesia by building high-traffic, performant news and media interfaces.

- Spearheaded the development of IDN Media’s company profile, delivering high-fidelity, responsive interfaces with strict 1:1 design-to-code accuracy and interactive galleries.
- Engineered a custom CMS to streamline content management (CRUD) and optimize editorial workflows.
- Optimized asset delivery and codebase to significantly reduce page load times and enhance cross-device accessibility.

Partai Demokrasi Indonesia Perjuangan - **Media Pintar Perjuangan Apps** Jun 2021 - Sep 2021

Mobile Developer

Developed a collaborative digital platform app for MSMEs and creators to build the people's economy, focused on robust feature delivery and cross-platform compatibility.

- Engineered a type-safe TypeScript architecture and optimized multimedia rendering to achieve fast data fetching and smooth.
- Delivered intuitive interfaces and complex navigation systems for educational modules and the "Warisan Nusantara" cultural archives.
- Coordinated cross-functional teams to align technical execution with overarching organizational goals.

PT Panca Eka Wira Sanjaya - **Company Profile Panca Eka Wira** Jan 2021 - Jun 2021

Web Developer

Built corporate digital solutions for Panca Eka Wira Sanjaya. Transformed their vision into a modern, efficient web platform for project and service management.

- Developed responsive, high-fidelity web sections with a focus on performance and optimized assets.
- Translated design into cross-browser compatible components using semantic HTML to maximize SEO and brand consistency.
